#### **Aims of your Organisation**

**Through specific actions, Digital Heritage** endeavors to stimulate cultural diversity in Europe so that quality content may have an immediate influence on people's lives and a positive impact on their cultural identity where ever they may live. Through the realisation of cultural identity through technological, educational, cultural, economic actions, we aim to strengthen the relationships between individuals, cultural institutions and member states across the European Union.

#### **Motivation for EUROCLIO membership**

Digital Heritage UK seeks to expand the use of digital resources available at digital libraries, archives and museums in education. The Euroclio membership will provide Digital Heritage UK opportunities to participate in the activities of one of its target groups; to get access to relevant knowledge. It will also enable it to offer to History teachers opportunities to get acquainted with the digital resources concerning the history of Europe that already available as well how to use the tools that transform them into educational resources.
