Aims of your Organisation	The Cyprus Pedagogical Institute, a government's research institute and in-service training centre aims to introduce in-service teachers to latest educational trends and findings, implement the educational policies through research and practice and support in-service teachers in their professional and personal development. The Pedagogical Institute covers a wide range of activities like compulsory and voluntary seminars of in-service teachers, it organizes and implements research and evaluation projects, it brings on the use of the New Technology in Education and it is responsible for the development of the teaching material, tools and books used in the country. The Institute is divided into four Sectors: the In-service Teachers' Training sector, the Information Technology Sector, the Research Centre and the Curriculum Development Unit. The Cyprus Pedagogical Institute cooperates with many organisations and institutions at a local, European and international level.
Why are your motivated to become a EUROCLIO Member	Because the Pedagogical Institute of Cyprus' objectives are in line with the EUROCLIO mission and vision. More specifically, the Pedagogical Institute of Cyprus wishes to join EUROCLIO in order to: engage in the vibrant cross-border professional network that EUROCLIO established over the many years of successful contribution to history education; collaborate in transnational, regional and international projects; share our professional experience with peers and experts; brainstorm on content and methodology issues; contribute to curriculum development and teaching tools; learn and share innovative approaches and methods; implement in practice, through our in-service teachers trainings in Cyprus and beyond, the acquired knowledge and teaching skills.
