17:10 **Keynote Lecture**

Prof. Dr. Claudia Jarzebowski, Bonn Center for Dependency and Slavery Studies

Modern concepts and practices of gender and sexuality have been invented in Europe only during the late 18th and then 19th century. They are insofar historically specific, however, it has long been taken for granted that gender and sexuality were naturally determined and anthropologically stable and constant. But, as Prof. Dr. Claudia Jarzebowski's paper will investigate, they were not. Bodies, genders and sexualities differed over space, time, and cultures, including religions and other forms of spirituality. These different and at times thought-provoking perspectives and practices of gender and sexuality will be the focus of this talk.

Stefania's workshop will look at representations of gender and kingship in early modern France, using a scheme of work on the French Revolution. By looking at a set of pictorial sources (from portrait and original cartoon), she will demonstrate how the representations Gender of monarchs - both Louis XVI and Marie Antoinette - were strongly related to ideas of femininity and masculinity. The source will show how - in the Revolutionary period - the criticism towards the monarchy was also conveyed through derogatory views of Louis XIV's masculinity and Marie Antoinette's femininity.
