LVL3

A high-achieving student is asked to mentor a student with learning difficulties but feels torn between their own academic priorities and helping others.

LVL3

A class is planning a major event, and the committee struggles to represent the interests of all cultural and socioeconomic groups fairly, with some voices even dismissing anything "non-traditional" to the region.

LVL3

A student new to the school and from a wealthier socioeconomic background is hesitant to join activities that less financially backed peers enjoy.

LVL3

A migrant student feels pressured to assimilate by changing their behavior and accent and becomes confused about their cultural identity.

LVL3

A student from a minority religion is invited to a class party that conflicts with their religious observances, but they don't want to miss out and they are torn between the need to belong and their identity.

LVL3

A student identifies as non-binary but is unsure how to request gender-neutral accommodations without alienating their friends and drawing unwanted attention.

LVL3

Two students from different cultural backgrounds have a misunderstanding that escalates into a larger conflict, leaving both feeling alienated and drawing loud opinions from various other schoolmates.

LVL3

A queer student demands specific pronouns to be used when addressing them, and when this is met with ridicule, they publicly shame their bullies on social media.

LVL3

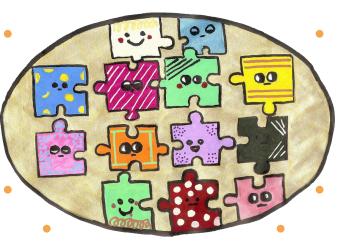

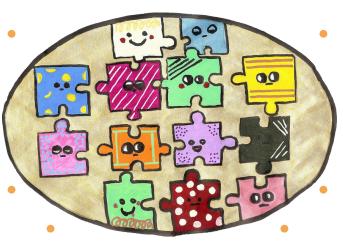

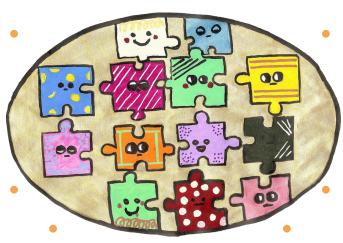

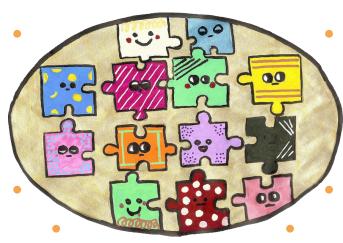

A female student is interested in leadership roles, but subtle gender dynamics in class prevent her from speaking up.

LVL3

A student with a physical disability is selected for a team project but feels their contributions are included only out of pity.

## The Future Forecaster

### Description

Help your group think about the long-term consequences of your decisions.

### Tips

- Ask: "What will this look like in the future? What if we don't interfere; and what if we perform a certain action?"
- Encourage your group to think beyond immediate outcomes.
- Discuss the importance of sustainable, lasting solutions.

## The Creative Catalyst

### Description

Inspire creative, out-of-the-box thinking in solving the scenario's challenges.

### Tips

- Encourage your group to think creatively and without limitations.
- Help your group come up with less-obvious solutions that challenge the status quo.
- Discuss how can creativity and improvisation serve as tools for problem-solving.

## The Strength Finder

### Description

Identify the unique strengths and talents of individuals in the scenario, using them to improve the situation.

### Tips

- Ask: "What strengths can each person contribute?"
- Help your group find solutions to recognise and celebrate individual talents.
- Discuss possible solutions that build on collective strengths.

## The Community Builder

### Description

Help your group build a sense of community within the scenario so that everyone feels included and valued.

### Tips

- Help your group think of activities that strengthen group cohesion and trust.
- Encourage solutions that prioritise community well-being.
- Discuss the importance of working together toward common goals.

# SENSEI's Puzzles of Empathy

v2024.11.13.A - Test Version

## Instructions for Teachers

### Purpose

This game helps students explore inclusivity through social scenarios and creative roles, encouraging empathy, teamwork, and inclusive thinking. In groups, students discuss a scenario, develop solutions, and create a presentation.

Total Time Required: 45 minutes

Recommended Group Size: 4 students

### Components

- Scenarios: These are situations that groups of students work on, with three levels of difficulty (from straightforward to complex).
- Roles: Roles with suggestions to guide each student's unique approach.
- Products: Group creations that express their solutions.

### Modularity and Customisation

- Create Custom Scenarios: After practising with provided scenarios, feel free to incorporate real-life situations your students face. Be sure to emphasise respectful exploration and adapt the rules if needed, allowing everyone a chance to speak and participate.
- Adjust Game Flow as Needed: The following structure is a recommendation. You might, for example, replace the in-class presentations with a later exhibition to give more time to work on the products. Feel free to adapt!

## Game Process

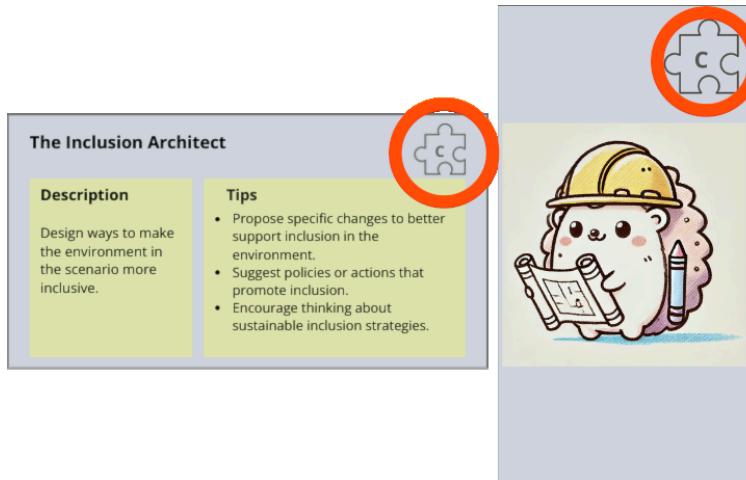

### 1. Preparation (5-10 min)

#### 1.1 Introduce the Game (5 min):

- Explain the game's purpose: promoting empathy, teamwork, and inclusivity. Briefly introduce the scenarios, roles and products, focusing on constructive discussion.

#### 1.2 Organise Groups (5 min)

- Divide students into groups of four. For this, you can use the group letters on the Role Cards. Each group table should have one of each letter.

#### 1.3 Prepare Materials

- Divide students into groups of four. For this, you can use the group letters on the Role Cards. Each group table should have one of each letter. Set a timer for an 8-minute discussion phase.
- Distribute Scenario Cards: Choose one scenario per group (Level 1, 2, or 3). Place face-down on each table.
- Distribute Role Cards: Hand out eight role cards (two per student). Each student privately reviews their two cards and selects one. Roles remain private until the end of the discussion. Tip: For larger classes, give each student one role card from the same group but pair them in advance with the scenarios to avoid possible mismatching.
- Display the Product options for easy reference later.

## **2. Game Flow**

Divide students into groups of four. For this, you can use the group letters on the Role Cards. Each group table should have one of each letter.

### **2.1 Group Discussion (8 min)**

- Start the timer. Move around to assist groups as needed. Each group should discuss their scenario, using assigned roles to approach it from various perspectives. Roles are revealed at the end of the discussion.

### **2.2 Product Creation (12 min)**

- Start another 12-minute timer. Groups choose a product type and begin creating their solution. Tip: you can also assign product types.

### **2.2 Product Creation (12 min)**

- Start another 12-minute timer. Groups choose a product type and begin creating their solution. Tip: you can also assign product types.

### **2.3 Presenting Solutions (10-15 min)**

- Allow 1-3 minutes per group to present their creation, depending on the number of groups.

## Product Options for Presentations

Each group selects one product type to present their solution:

1. **Awareness-Raising Poster:** An attention-grabbing poster that educates on the issue.
2. **Flash Mob Scenario:** A creative demonstration to draw attention to the issue/solution.
3. **Day Trip Plan:** A class visit plan to museums, cultural centres, NGOs, or other relevant sites.
4. **Workshop Outline:** A peer-led workshop plan aimed at empathy and inclusivity.
5. **Social Media Campaign:** A social media plan with posts, hashtags, and an awareness strategy.
6. **Interactive Role-Playing Scenario:** A brief script that enacts the issue and solutions, allowing peers to engage with the scenario (avoid assigning “victim” roles).
7. **School-Wide Event Proposal:** An event proposal like Diversity Day or a Cultural Fair.
8. **Podcast or Video Plan:** A plan for a podcast or video with interviews, stories, and solutions.
9. **Interactive Game or Activity:** A mini-game or activity that teaches the issue through participation. If it is a game, it can be a social, tabletop or video game.
10. **Class Debate or Discussion Plan:** A structured debate or moderation outline on the scenario’s key elements.
11. **Zine:** A mini-magazine or booklet showcasing the group’s reflections, ideas and solutions.
